

Solar Pumping Inverter Series

E2L™

P148E

E24 Solar pumping inverters are highly accurate and reliable inverters specifically conceived to drive pumps of all types. Solar Pumping Inverters use a high accuracy fast MPPT algorithms to track PV array output by the maximum power point. The inverter includes the algorithm to soft start the pumps and automatically monitor its torque to minimize its consumption and keep it running even under low solar radiation.

The inverter includes an AC input in order to drive the pumps during very low solar radiation or during night time.

E24 Solar Inverters include the needed circuitry and intelligence to self-protect as well as protect and increase the lifetime of the connected pumps.

Capacity Range

Power range: 0.4-160 kW

Output frequency: 0-400Hz

Input voltage range:

1: DC 200V-380V, 1-phase AC 220V 2: DC 200V-380V,
3-phase AC 220V 3: DC 350V-750V, 3-phase AC 380V 4: DC
450V-850V, 3-phase AC 480V

Technique Features

- > Built-in high precision PV array maximum power point tracking MPPT algorithms
- > Dry running mode monitoring, treatment
Tank water level control
- > Accept DC/AC input
- > LED displays the real time situation and the parameter of system
- > RS485 Modbus RTU
- > Real time remote control system
- > Fast installation design, no need for extra maintenance
- > Built-in full protection and diagnostic mechanism.

Application Filed

Agriculture irrigation, grassland animal husbandry, forest irrigation, municipal water, landscape fountain, fish pound, highway greening, coastal saltworks water supply and drainage, etc.

E24 Modular Range Of Products For Building Easy, Flexible & Evolutive Solutions

E24 products dynamically evolve with the lifestyle and work style of its customers while easing the installation process.

E24 products are conceived in modules allowing for an easy upgrade to adjust with the needs of the customers. Being modular and easy to connect E24 products allow installers to easily configure the required modules for an optimal solution while offering easy upgrade options.
